

Funded Doctorate in Visual Culture

Date : July 3, 2013

A funded PhD offer in the field of Visual Culture at the Dept. of Communication Studies (University of Antwerp) within a project entitled 'Cultural Displays and Encounters in Globalizing Urban Areas'.

The Visual Studies and Media Culture Research Group (ViSMeC) of the University of Antwerp seeks a Full-time Researcher/PhD student with an interest in Visual Urban Culture for the FWO-project: 'Cultural Displays and Encounters in Globalizing Urban Areas'.

This project proposes to interrogate the visual dimensions of globalisation and acculturation processes (and their opposite forces) as expressed in material culture elements of a varied nature, as well as through visible and recordable aspects of human behavior in urban public spaces. It aims to enrich and complement the more abstract discourses on globalisation and transnationalism with empirically grounded insights regarding concrete expressions and enactments of cultural encounters in urban environments. At the same time it will develop and test a fine grained and innovative methodology for researching visual expressions of cultural change and identity in the urban context.

Profile and requirements:

- A master degree in Sociology, Anthropology, Communication Studies, Urban Studies, Social and Cultural Geography (or any other degree relevant to the project).
- A strong interest in and/or prior experience with visual methods (visual data production and analysis).
- Strong analytic and conceptual skills.
- Good English language skills.
- Ability to carve out an original PhD project in the broad confines of the FWO project.
- Master students in their final year may also apply.

We offer:

- A research position/ doctoral scholarship for a period of one year, with the possibility of three renewals for one year after positive evaluation (so four years in total to complete a PhD).
